COLLECTION

Our goals can only be reached through a vehicle of a plan, in which we must fervently believe, and upon which we must vigorously act. There is no other route to success.
- PABLO PICASSO

01. DESIGN

Our creative research focuses on developing new and on trend products, in order to guarantee a long-lasting fresh appeal.

02. PRODUCTION

Excellent materials and the latest technologies are the key for a competitive and sustainable production nowadays.

03. SERVICE

We offer a complete support to our clients in terms of planning, product customization and dedicated assistance.

CORAL SEA COLLECTION

The Coral Sea Collection is a tribute to the natural wonders of the underwater world. Through an organic patterned design and muted carpet color variations, it's possible to complement a neutral gray base with subtle accents. As in the coral reef, the view always turns rapidly, and the vivid changes in contrast and color density create diverse and dynamic patterns. The various plays of light and shadow and the softly nuanced pastel tones give life to a new interior design element in the balance between the need for a more classic approach and the openness toward creative solutions.

SPECIFICATION

Construction: Multi-level Loop
 Fiber: Voxflor® Certified Nylon
 Gauge: 1/12"
 Stitches: 10 per inch
 Pile Weight: 20 OZ/yd2
 Average Pile Height: 4,0mm±0,5mm
 Backing: EcoAce-Bac®

URBAN FOREST COLLECTION

To generate sustainability and positivity in our daily life it is absolutely necessary to bring back a sequence of natural elements to clean, refresh, and protect our cities. Urban parks and green spaces are the new lungs of the metropolis and the element of connection between citizens and Mother Nature. To celebrate this immense value, VOXFLOOR Urban Forest Collection aims to reconnect interior spaces with the rest of the world. Developed in two different density patterns that share the same colors and construction, Urban Forest symbolizes with the Root product a more intricate design to represent attachment to the ground and with Crown a slightly thinner intricacy to represent the will of tree branches to touch the sky.

SPECIFICATION

Construction: Multi-level Loop
 Fiber: Voxflor® Certified Nylon
 Gauge: 1/10"
 Stitches: 10 per inch
 Pile Weight: 24 OZ/yd²

SOUNDTRACK COLLECTION

Soundtrack Collection is like the musical theme playing in the background. It's the visual accompaniment of our daily life. It fills with harmony the flat flooring surface, with little passionate accents here and there, gentle and delicate when it's about Ambient, rapid and vivid with Folk, stronger and vibrant for HardRock. Moreover, thanks to its Aquafil Econyl 100% regenerated nylon, Soundtrack Collection represent a fully sustainable and green product. Just follow the rhythm and play with us!

SPECIFICATION

NORTHERN EDGE COLLECTION

The Northern Edge carpet tiles collection is inspired by the contrasting beauty of the extreme regions of the North. These lands are characterized by the harmonious interplay of fire and ice. The sea deposits large ice fragments on black volcanic beaches, while rivers carve deep canyons in the basaltic rocks. Diamond Beach and Basalt Canyon, with their different but combinable patterns, based on strong contrasts of black and white but softened by gentle pastel color accents, recreate the feeling of traditional Scandinavian carpets through a complete reinterpretation of carpet tiles.

SONIC FLOW COLLECTION

Sonic Flow is the translation of sound energy into a pattern for modern commercial flooring. Thanks to its minimal style, natural colors and the use of a special nylon fiber development technology, its finishing offers a rustic feeling with particular attention to detail. Its colors cover a wide chromatic range ranging from warm grays to beige and brown tones.

SPECTRUM COLLECTION

The natural sunlight when hits a translucent surface can get reflected pure as before or it can reveal its secret composition by breaking down into various frequencies of the visible Spectrum. The Collection is consequently composed as follows: Ray Path as pure light, Light Stream stands as a single color reflection, meanwhile Color Sparkle represents a more complex refraction. Ray Path, Light Stream and Color Sparkle represent three levels of creativeness. The first can be considered as a basic product, more simple and pure, the second adds a standard color accent level, whereas the third one by combining two color accents guarantees an extraordinary and unique design approach with astonishing visual impact.

MEDITATION COLLECTION

Take a moment to pause, inhale, and relish the present moment. In our busy lives, endless tasks can overwhelm our minds. The Meditation Collection, represented by Zen Glow and Mindful Path, introduces a sense of calm and serenity with delicate patterns and a palette of muted grays and colors. Designed to inspire peacefulness, these products establish a sanctuary amidst life's rapid pace. Mindful Path and Zen Glow embody the essence of inner peace and self-exploration. Beyond floor coverings, they invite intentional steps towards tranquility, harmonizing design with mindful living.

SCANDINAVIA COLLECTION

The collection is composed by three products: Aarup, Almhult and Molde. Aarup is based on a linear texture, so to generate more movement, while Molde offers a more flat and calm feeling. With an elegant and dynamic design, it takes its best look by using a combination of two or even three products together. The collection comes with a scale of five grays, three beige and an intermediate color. Molde, moreover, has an additional selection of colors to expand the design options by introducing accents.

MUNDI COLLECTION

Mundi collection is composed by a series of four different products, developed on five tones of gray. Base represents the root for the whole system, totally neutral, offers a solid and fresh background for young professional areas, dynamic commercial spaces and hospitality. Fossil and Misty are built up with the same texture of Base plus two strong pattern design. An eroded, aged net-like system for Fossil and a diffused melt for Misty, adding a strong color accent to the neutral scene. Moss is pure color, with shades of tone on tone, not to flatten its look. The four are left free to be used individually or in a homogeneous mix, according to the designer taste and will.

SPECIFICATION

EUROGARDEN COLLECTION

Eurogarden means infinite colors. Thanks to its yarn dyed Nylon 66 construction, it offers every possible color. Its standard production is about 100 different colors but thanks to the always possible customization, it can be offered in the desired color every time. In addition to this, it provides a multi-level designed pattern that breaks the static feeling given by the plain color, defining a new category in monochrome products.

SPECIFICATION

Construction: Multi-level Loop & Tip-shear
Fiber: Ascend® Nylon 6.6
Gauge: 1/2"
Stitches: 11 per inch
Pile Weight: 21 OZ/yd2

SENSE COLLECTION

Sense is a complete palette of grays and beige tones. It has been developed on a 750 den. Yarn system, thanks to which can offer a dense and vivid color look. It offers an overall elegant feeling and by the chance of using it in single color or in multiple shades combination, playing with its planks laying can generate infinite results. Designer can play with its similar tones, creating sort of fading effects or with more different colors, for a heavier contrast result.

HUSSAR WINGS COLLECTION

Hussar is a perfect example of basic product. It's a low level-loop construction carpet which guarantees durability, easiness in maintenance, and a huge color selection to satisfy any need of commercial spaces. Thanks to the development of Hussar Wings, in which the basic color is overlapped with accent lines, the collection gets a boost in its potential. And with the addition of the SHAPES system the design options are infinite.

COLLECTION

Our goals can only be reached through a vehicle of a plan, in which we must fervently believe, and upon which we must vigorously act. There is no other route to success.
- PABLO PICASSO

OUR SERVICE ONE TEAM

When specifying VOXFLOOR carpet tiles, you can rest assured in the knowledge your project is in capable hands. Our dedicated project management team will follow your project through from order to installation to ensure it is completed to specification, on time and within budget.
